PETITION: KEEP PROJECT STAFF AT BANK/MONUMENT

We the undersigned staff on Bank group, from all grades and unions, oppose London Underground's decision to replace existing project CSAs at Bank with the Special Requirements Team. As 'On The Move' recently pointed out, the Bank/Monument complex is the largest underground railway station in Europe. There are already serious concerns about staffing levels, assaults and evacuation times on the station, and replacing staff who are familiar with the running of the station and well-versed in evacuation procedures can only make these problems worse.
